

**LAB PROCEDURES REVIEW  
RADIATION SAFETY  
Indiana University - Bloomington**

1. \_\_\_\_ Procuring radioactive material
2. \_\_\_\_ Storage and security of radioactive materials
3. \_\_\_\_ Inventory records
4. \_\_\_\_ Designating a use area
5. \_\_\_\_ General lab safety rules for using radioactivity
6. \_\_\_\_ Protective apparel and equipment
7. \_\_\_\_ Shielding
8. \_\_\_\_ Survey procedures
9. \_\_\_\_ Survey records
10. \_\_\_\_ Decontamination and notification procedures
11. \_\_\_\_ Radioactive waste handling and disposal

I have been provided with an "in-lab" review of the essential procedures required for working safely with radioactive materials at Indiana University - Bloomington. I hereby agree to observe these procedures and all other relevant procedures and policies (as contained in the IUB Radiation Safety Manual) during the course of my work.

**Applicant:** \_\_\_\_\_ **Date:** \_\_\_\_\_

I have reviewed the above procedural issues with this applicant and confirm that he/she has demonstrated an understanding of these procedures sufficient for conducting his/her work safely and in compliance with IUB policies.

**Radiation Safety Specialist:** \_\_\_\_\_
